

## TSRC Workshops

The Transportation Safety Resource Center will be hosting the following courses this spring.

**DISCOUNT:** When registering for any TSRC course, use the discount code *ITEmet* to receive \$20 off the total price per person.

We now accept credit cards, purchase orders, and checks for all classes – just register online and specify your payment type.

### **Road Safety Audits for Locals Workshop**

The Road Safety Audit workshop is designed to introduce road safety audits as an effective tool that can help to reduce injuries and fatalities on road networks. Road safety audits can be used in any phase of project development from planning and preliminary engineering, design, and construction. This workshop will help local road agency professionals understand basic road safety audit concepts, risk and safety, and common issues, and allow them to bring this knowledge back to their organization. Anyone involved in planning, engineering, law enforcement, or emergency services can benefit from this workshop.

**Date:** March 5, 2009

**Cost:** \$85 government/\$100 private industry

**Approved for 6 PDHs by the Practicing Institute of Engineering**

Register Online: <http://guest.cvent.com/i.aspx?4W,M3.fc023bf3-655e-48b9-82e4-c0d5c1dd4a17>

### **Traffic Signal Design I**

This course is for anyone who designs traffic signals and files for approvals. The workshop will address the amendments to N.J.A.C. 16:27-approval procedure and the passing of bill A2731. The new regulations have modified the submission and approval processes to better serve both the New Jersey Department of Transportation (NJDOT) and county and municipal agencies that plan to install new or revise existing traffic signals. Local agencies must be educated about the changes that affect design and approval of signals.

**Date:** April 13-15, 2009

**Cost:** \$200 government/\$225 private industry

**Pending approval for 18 PDHs**

Register Online: <http://guest.cvent.com/i.aspx?4W,M3,d0a15c41-c438-459c-995b-b12e499dbe51>

### **Electrical Signal Design**

This course is for anyone who designs electrical components of traffic signals and files for approvals. The Division of Traffic Engineering and Safety in collaboration with TSRC has developed an Electrical Signal Design of Traffic Signals Workshop. This workshop is geared towards local agencies to: 1)enable them to successfully design and implement the electrical portion of traffic signals, 2)provide an opportunity to learn about effective signal design, and 3)New Jersey regulations to improve the safety on all New Jersey roadways.

**Date:** May 6-7, 2009

**Cost:** \$250 government/\$275 private industry

**Pending approval for 12 PDHs**

Register Online: <http://guest.cvent.com/i.aspx?4W,M3,73015b2e-6108-41ec-8136-f983d146d5a3>
