

The Future of NYC Streets: NYC DOT Street Design Manual

CES LUs: 1.5, HSW: 1.5

When: Friday, June 12, 2009

8:00 AM - 10:00 AM

Where: Center for Architecture
536 LaGuardia Place

NYC DOT project team members will present an overview of the newly released New York City Street Design Manual (www.nyc.gov/streetdesignmanual), the culmination of a year long inter-agency effort to create comprehensive guidelines for safer, more sustainable and attractive streets that encourage a wider range of uses. A panel of respondents representing various planning and design disciplines will provide their perspective on this ambitious initiative to refocus streets as great public spaces.

Speakers:

Margaret Newman, AIA, NYC DOT Chief of Staff

Michael Flynn, AICP, NYC DOT Division of Planning and Sustainability

Respondents:

Gordon Meth, P.E., P.P., PTOE, PTP, Director, Traffic, The RBA Group, Inc., and president of the Institute of Transportation Engineers (ITE) Metropolitan Section of NY & NJ Metro Section

Randy Morton, AIA, Partner, Cooper, Robertson and Partners

Tricia Martin, ASLA, LEED AP, Partner, WE Design

Sponsors: AIANY Transportation & Infrastructure Committee, AIANY Planning and Urban Design Committee, ASLA New York Chapter, APA New York Metro Chapter Transportation Committee, Institute of Transportation Engineers Metropolitan Section of NY & NJ

Free for members of sponsoring organizations; **\$20** for non-members
